**AQUATEC ANNOUNCES NEW
REPRESENTATIVE AGREEMENT FOR JAPAN**

**Japanese subsea specialists SeaBreath Co., Ltd. will distribute
Aquatec's instruments.**

On Wednesday 7th April, 2020 Aquatec Group Ltd. and SeaBreath Co. Ltd. have signed a reseller agreement.

Aquatec is delighted to welcome SeaBreath as a representative for the distribution of their established underwater instrumentation for oceanographic research, environmental and coastal applications in the highly sought-after Japanese market.

SeaBreath is a group of subsea specialists which provides comprehensive proposals for observations, surveys and research. The company caters to the needs of the Ocean Science, Hydrography, Coastal Engineering, Fisheries Science, Marine Biology, and Underwater Robotics markets.

The newly signed representatives will provide sales support for Aquatec's innovative AQUAScat[®] range of acoustic suspended sediment profilers, as well as the AQUAlogger[®] instrument line of turbidity, temperature and depth loggers.

Managing Director of Aquatec Group, Andy Smerdon, said "We are looking forward to working closely with SeaBreath in order to provide customers in Japan the very best service and innovative technologies. Aquatec has been designing instrumentation for oceanographic and environmental monitoring for 30 years, and we are continuously improving and developing our instruments to meet our customers' needs."

###

About Aquatec Group

Since its foundation in 1990, Aquatec Group has been designing and manufacturing innovative instruments and bespoke solutions to measure, monitor, and communicate underwater data. The company serves all subsea-related industries, including oceanographic, environmental, and offshore energy.
